

WHAT'S THE DIFFERENCE?

Catholics, Orthodox and Protestants

With the Catholic Church's recent response to the Traditional Anglicans, people have become increasingly curious about the differences in the practices and beliefs of the Catholic, Orthodox and Protestant Christians. This 8-session course helps you gain a deeper understanding of the differences while also strengthening your understanding of the Catholic faith.

This course aims to help its participants better understand the beliefs of people coming from various Christian traditions. This is so that we can avoid making premature conclusions about other Christians before seeking first to understand what they truly believe.
